REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Applicant has argued that Kashimura failed to teach or suggest continually determining a parameter that depends on acceleration of the internal combustion engine by a monitoring and analysis method, arguing that differential revolution speed was not equivalent to acceleration. Albeit, it is irrelevant since applicant admits to do so is well known in the art (lines 9-29 of page one of specification). However, Kashimura and the prior art fail to disclose or teach determining a variance of acceleration parameter and adjusting the threshold value to take account the changes in the even running of the internal combustion engine as claimed in independent claim 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arnold Castro whose telephone number is (571) 272-4839. The examiner can normally be reached on MTWTF 3pm-11pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stephen K. Cronin can be reached on 571-272-4536. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
